**Re: Accreditation of GWP India as “Country Water Partnership”**

Dear Dr. Hashim,

It is with great pleasure that we have granted accreditation to GWP India as Country Water Partnership (GWP), the entity responsible for coordinating the action of GWP in your country. Congratulations! I would like especially to commend your own valuable participation as instrumental in the establishment and operations of GWP India. My congratulations are also extended to each and every GWP partner organization in India, for their constructive work, their willingness to get organised and to coordinate their efforts through the creation of this common platform for vital water issues.

I trust that GWP Partners in your country will contribute to the consolidation of GWP India as a fully fledged Country Water Partnership and will consistently support the expansion of the GWP network. We also believe that a close integration between GWP India and GWP South Asia will be extremely beneficial for the region as whole. As you may know, GWP India is now entitled to use GWP’s name and logo in accordance with the guidelines prescribed in GWPO’s Graphical Policy, and we would appreciate it if you could liaise with GWP South Asia’s Communication Officer to receive further information on this topic.

Yours truly,

Dr. Ania Grobicki  
GWP Executive Secretary
